CANADIAN INTERNATIONAL SCHOOL BANGLADESH

Volume 17, Issue 2

November 2017

## Mission Statement

At the Canadian International School, we provide education in a safe, stimulating and challenging environment that nurtures the mind, body and spirit of each child as he or she pursues academic excellence.

## Vision

“Betterment of self for society”

## Badminton Tournament

2017 DISA High School Boys and Girls Badminton Tournament at CISB sponsored by SNOWTEX

EC-JK

They did the craft work with the letter "Ff" Fish.

KG

Understanding seasons.....

## Grade 1

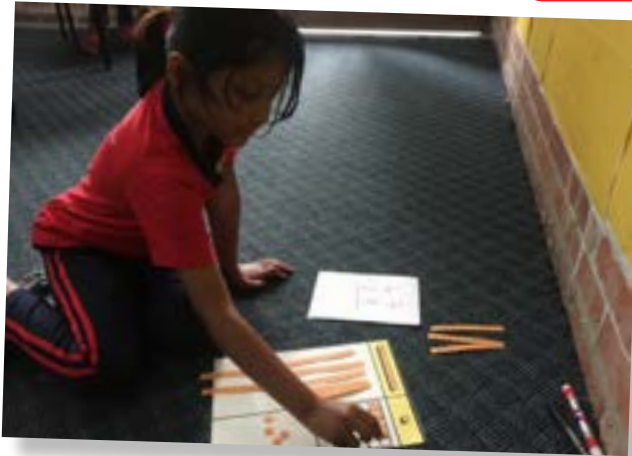

Maisha interpreting a graph to her peers.

Rules are very important everywhere. Grade 1 made their own rules about playing safely in the playground.

## Grade 2

Children are demonstrating addition story problems on the place value mat.

Experimenting that a screw is a simple machine that has an inclined plane wrapped around a cylinder.

## Grade 3

Separating Soil a hands on activity at Science Class.

Grade 3 students are learning the concept of Turn in their Math Class.

Magnets pick up magnetic object! A hands on activity in Science Class.

Students are creating composting bucket for their school using organic materials.

## Grade 4

Grade 4 students built castles as a part of their English and Social Studies lessons to learn all about the life of Kings, Queens, Knights and Kingdoms.

## Grade 5

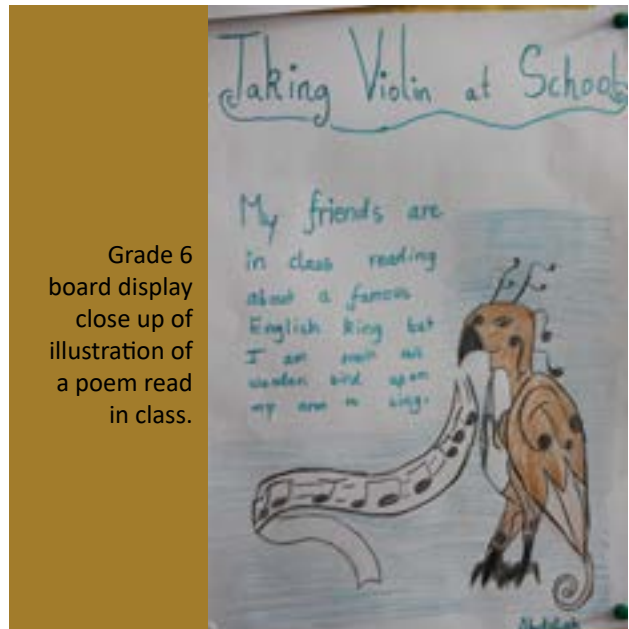

In grade 5 science, Students described physical changes and chemical reactions that can take place in household products and explained how these reactions affect the use of the products. Tie dye experiment results could relate them to have a better understanding of changes in matter.

## Grade 6

Grade 6 performing at their Recognition Assembly.

Grade 6 board display close up of illustration of a poem read in class.

Taking Violin at School

My friends are  
in class reading  
about a famous  
English King but  
I am sure all  
wonder bird upon  
my arm to sing.

Grade 6 Board display of animation stories and illustrations for poems.

**Grade 7**

Grade 7's creating concept web posters on THE WAR OF 1812 as part of their Social Studies project.

## Grade 8

The grade 8 students are doing research work on multicellular and unicellular organism.

## Grade 9

Grade 9 students are doing clay work as a part of their visual arts course.

## Grade 11-12

The history of mathematics is fascinating and closely linked to the region now known as Bangladesh. The concept of zero as a digit in the decimal place value notation was developed in India, presumably as early as during the Gupta period (c. 5th century), with the oldest unambiguous evidence dating to the 7th century. (<https://en.wikipedia.org/wiki/0>)

At CISB each student is building on their unique varied math history to become successful in the challenging Canadian curriculum outcomes.

We have developed a MATH STUDENT OF THE MONTH. This month's winners are:

Grade 9	Nahiyat
Grade 10	Fuad
Grade 11	Marzan
Grade 12	Fahad

Each month we will celebrate a math skill. This month's skill is ACCURACY. Congratulations.

## Physical Exercise

## High School Computer

This month we utilized GIMP (an open source alternative to Photoshop) to manipulate photos of ourselves using disintegration and dispersion effects. This gives the appearance that we are disintegrating into small particles like dust.

# Parent Teacher Meetings

## 10/11 Art

### Message from the Academic Coordinator

Term 1 is already over and the PTM was conducted smoothly. Parent feedback has always been very important to us and your encouraging words and suggestions have motivated us to do even better.

As Term 2 begins, we are geared up to conduct more events. The CISB DISA badminton tournament was conducted very successfully. Students from various schools participated.

The Annual Sports Day will be held on 9th December 2017. Educational field trips, guest lectures and lot more activities; whether academic or co-curricular are planned for students.

Our teachers are not only teaching the curricula and skills, but prioritizing values and qualities that we believe, our students, the nation and our world will need later in the century. Courage, compassion and resourcefulness are the values that will set them apart in the future as they assume leadership roles they are bound for.

We are on a constant roll to help and guide the children to find their passion for the natural process of discovery, a natural sense of communicating collaboratively in class; across cultures and in online groups, develop an ability to organize and present complex ideas and strategies and recognize their responsibility towards their contribution in the classroom and in the society.

Grades 7 & 8 have started novel reading. This is not just to inculcate reading habits in them but this will improve their creative and critical thinking skills. Though the prime focus is to make academics more strong, yet we are not deviated from the goal of overall development of the children.

We are sure that we will continue to receive your support, as always. We thank you for being with us in every step and every endeavour of ours.
