CANADIAN INTERNATIONAL SCHOOL BANGLADESH

Volume 19, Issue 4

December 2023

## Mission

At the Canadian International School Bangladesh, we provide education in a safe, stimulating and challenging environment that nurtures the mind, body and spirit of each child as he or she pursues academic excellence.

## Vision

“Betterment of Self for Society”

## The Trip to Thailand

A dozen students are joining their teachers for a week-long experience in Thailand. The group will be staying in the residences of “Traidhos Three-Generation Community for Learning” and will be taking part in a program designed by the Thai school to enhance awareness of other cultures and help our students develop an “international perspective”. Not only is this necessary for our IB students who will use the information gained in their “CAS” course, but all students will find it useful when making the transition to a student in a foreign country when they go off to university.

The school is located in the community of Traidhos, near Chiang Mai, in northern Thailand. While there, our students experienced various outdoor activities including kayaking, water safety white water rafting, cooking in the jungle, Thai language and Culture, high ropes, and zip wires, trekking on the trails, and visiting the Elephant Nature Park.

The motto of the program is Inspirational Education for Global Citizens. Helping children become Global Citizens is our goal here at CISB as well. And I'm sure they'll have a good time.

## Day One

## Day Two

## Day Three

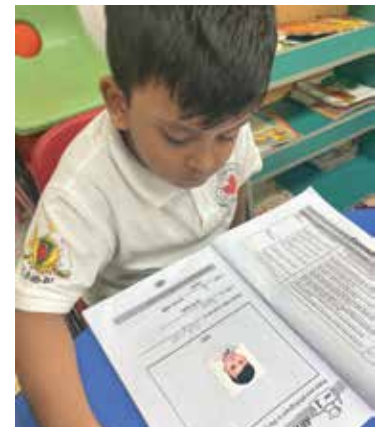

## Day Four

## Junior Kindergarten

They learn about Myself, Shapes, Living things and Non-Livings things, the Food chart, Parts of plants, Seasons, Beginning sounds of Letters and some activities in the park.

## Kindergarten

Kindergarten students are sharing care.

## Grade 1

Grade 1 Students made a project on objects, materials and their purpose.

## Grade 2

Grade 2 students are conducting a survey.

Peer teaching helps them to grow as a confident learner.

As an extension to the reading comprehension stories covered in class, we imagined how Harry the baker, from “Each One Special” decorated his cakes, and put words and illusion together to create imaginative yummy pictures of cakes.

## Grade 4

Grade 4 students are working on their class assignment.

Grade 4 students made posters for class presentation to create awareness about endangered animals.

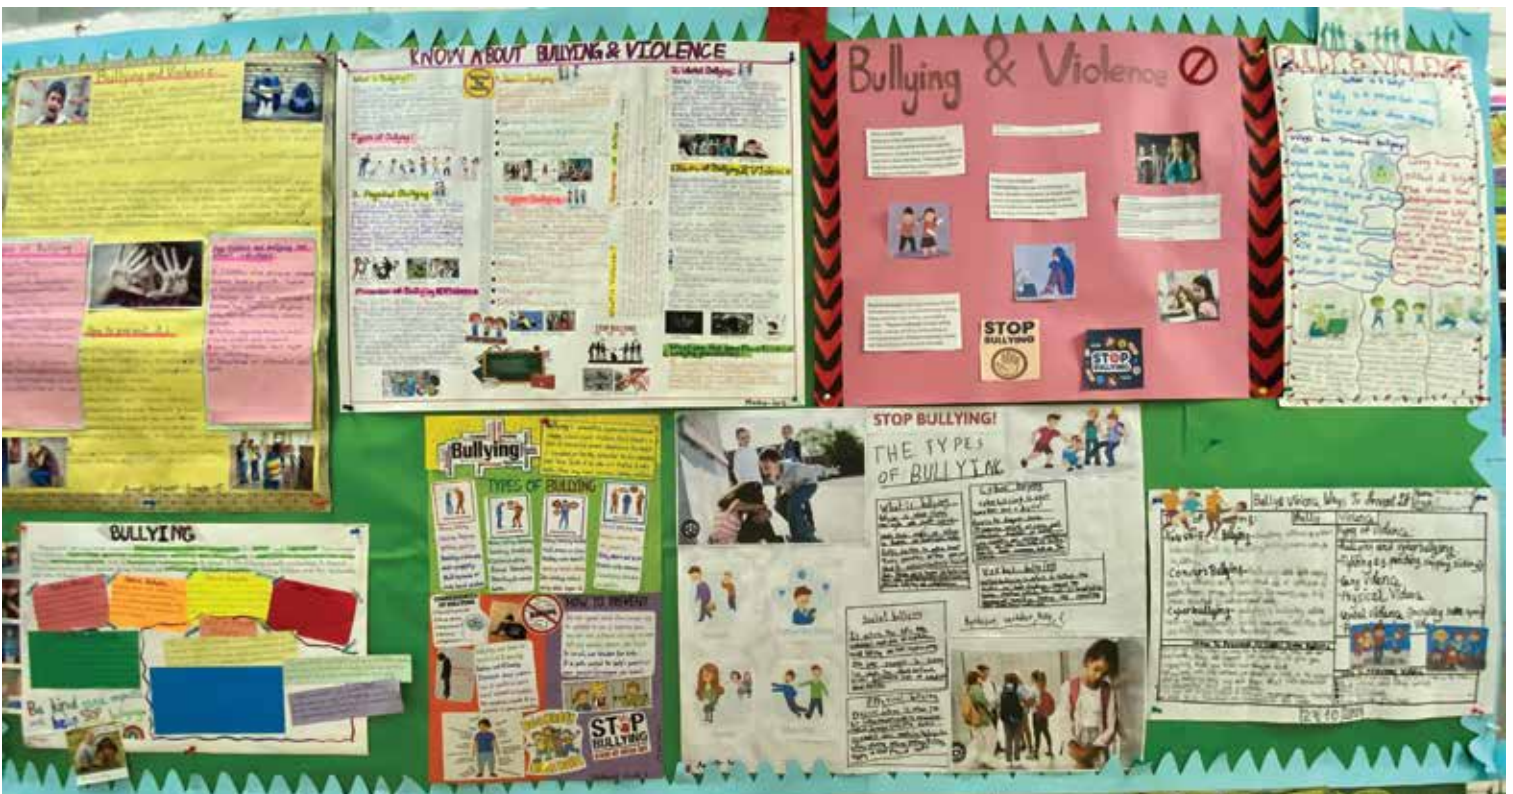

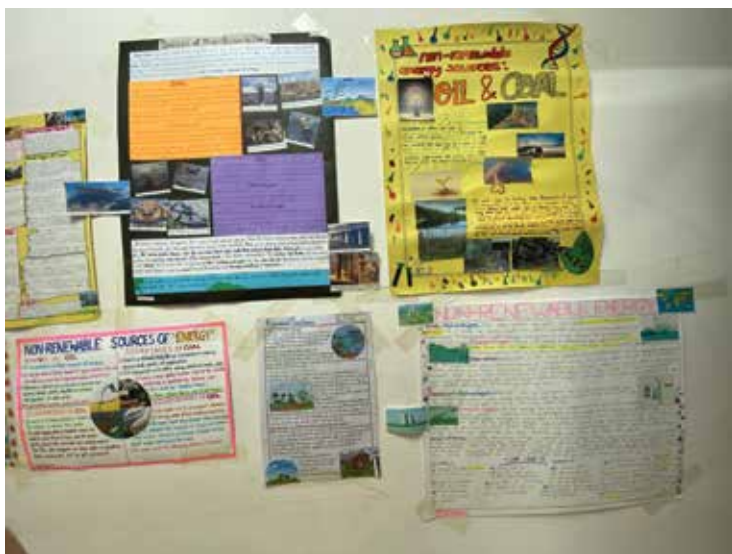

On 14th December, 2023, we celebrated the Victory Day of Bangladesh. Grade 4 decorated their classroom door with messages for the occasion.

## Grade 5

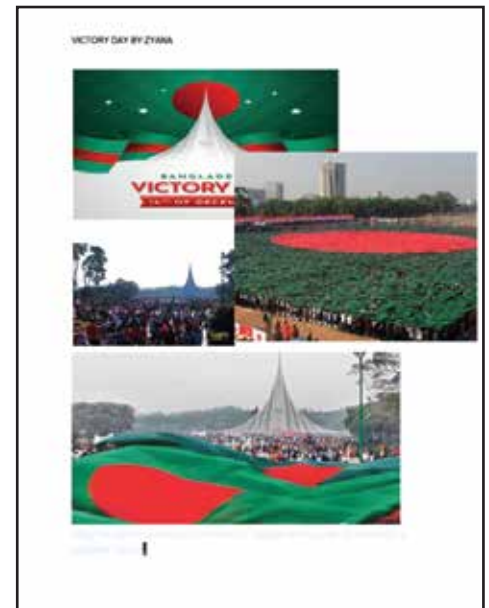

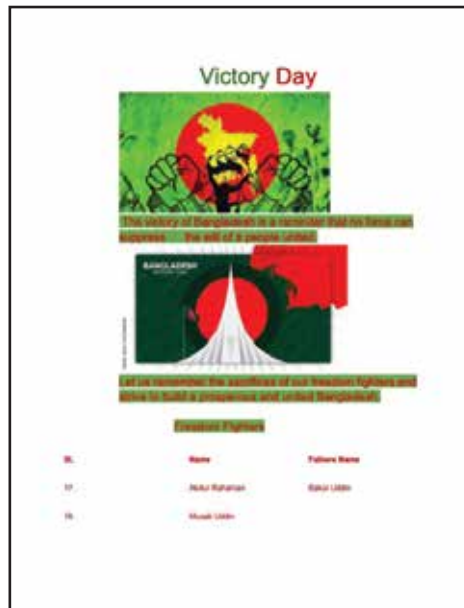

Grade 5's media work on 'My Hero'. Their task was to portray the characteristic of a hero. The hero could be an imaginary character or someone they know.

Grade 5 students worked on poster presentation on "Bully & Violence". They also worked on "Non Renewable energy sources" in Science class & made an informative chart work on it.

## Grade 6

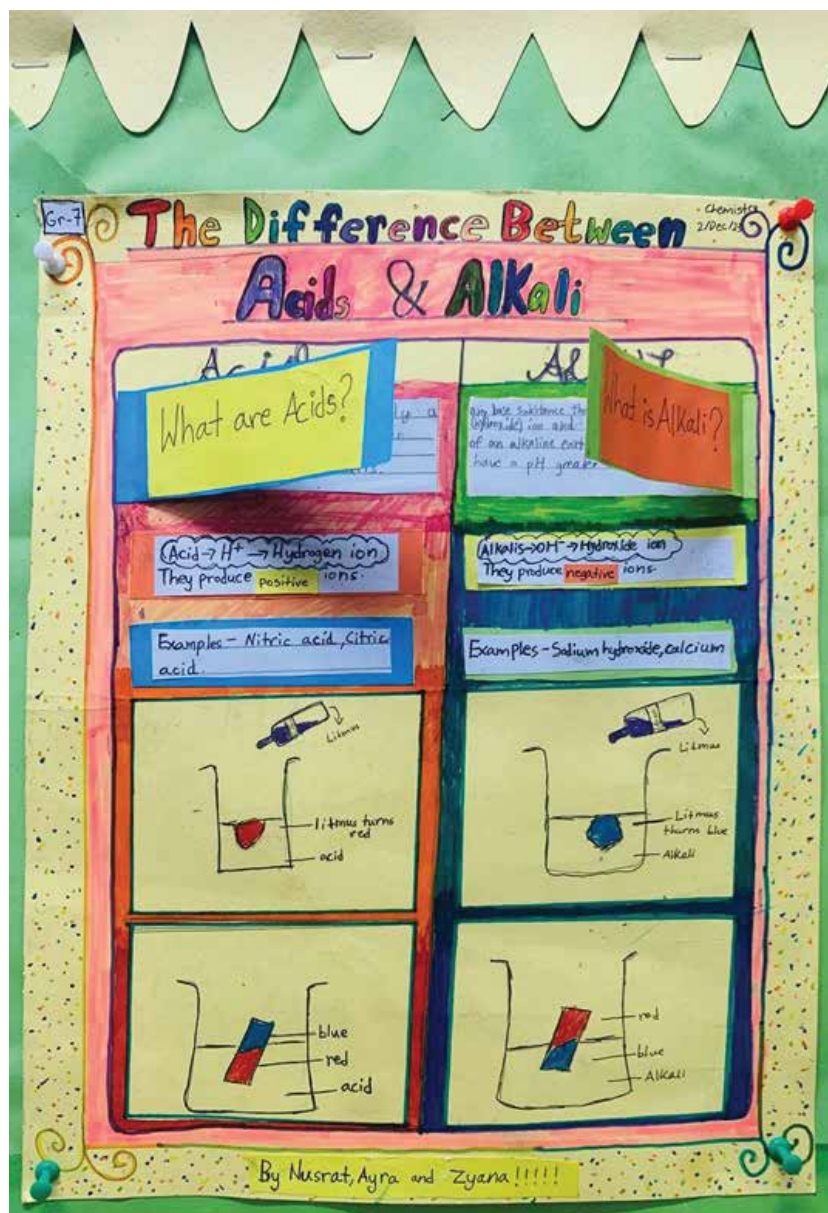

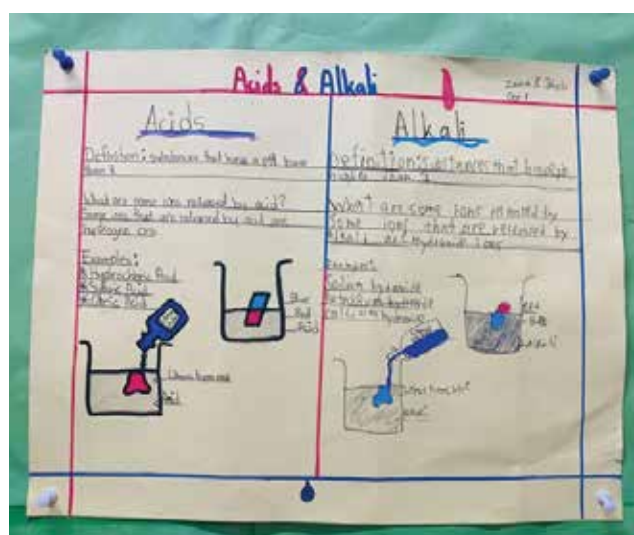

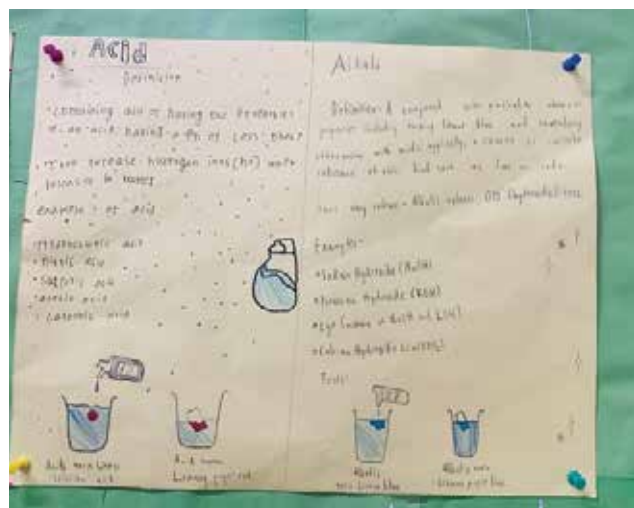

### Grade 6/7 ICT project:

The students of grade 6 and 7 made a poster on MS Word on Victory Day during their ICT class.

## Grade 7

### Grade- 7 Chemistry Project:

The students made projects in teams to showcase the comparison between acids and alkalis to enhance their understanding of the topic.

# Into Night

By - Ayra

Feel how the trees are leaning  
over  
to watch you on your way.  
Hear dead leaves hiss and  
crackle  
as you twist them underfoot  
as wind whip and shuffle them.  
See how each streetlight plays  
at being the ultimate  
all-too-solemn moon  
Sense that all lighted houses  
stand ready each one waiting  
Your firm knock on the door  
Know without lifting your eyes  
one star up there will burn  
Brighter than the rest for you

## Change

The Natural World

The summer  
Still hangs  
Heavy and  
sweet  
With sunlight  
As it did last  
year

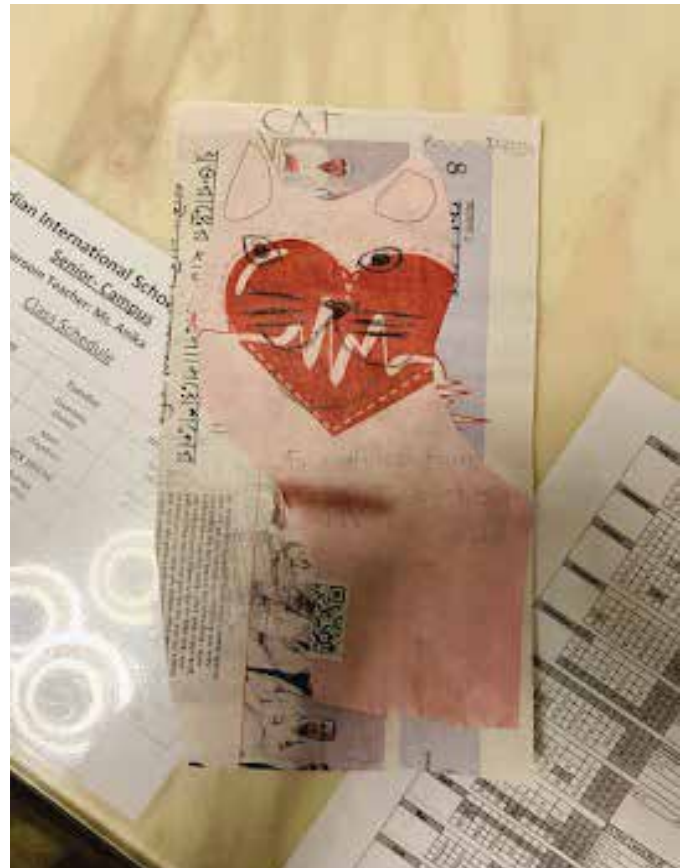

The winter  
Still clings  
Clean and cold and white  
As it did last year

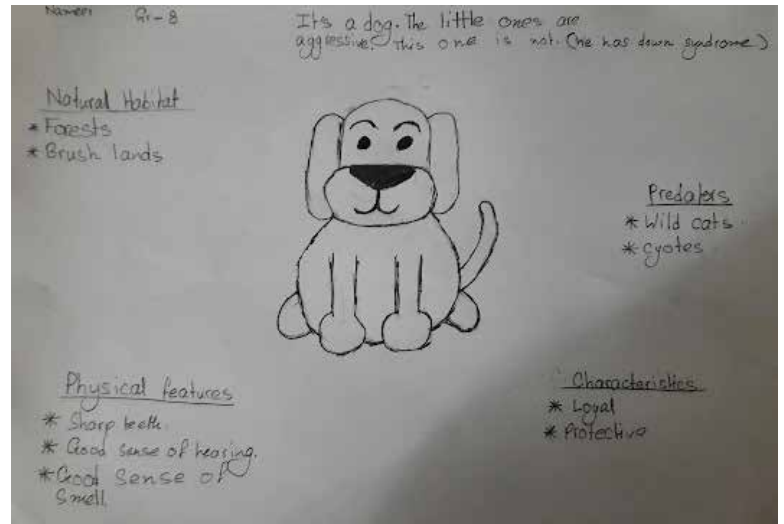

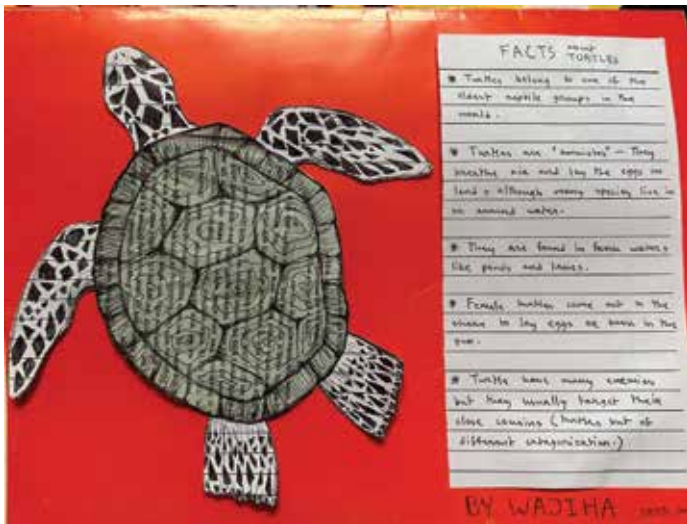

Grade 7 students recently delved into the captivating world of Rebus poetry, fusing words and visuals in a creative dance of expression. In this engaging activity, they crafted poetic verses interwoven with images, unraveling layers of meaning and sparking imagination. Through this playful yet thoughtful exercise, they explored the art of communication, infusing their verses with the power of both language and visual cues.

## Grade 8

Grade 8 students embarked on a whimsical journey, transforming simple newspapers into artistic representations of animals. Each creation mirrored the essence of home, encapsulated the concept of an enemy, and celebrated the unique qualities of the chosen creature. Through this craft, they not only honed their creative skills but also delved into the deeper symbolism behind each animal, weaving stories that reflected resilience, adaptability, and the beauty of diversity.

Grade 8s learning about their senses (touch, taste, hear & smell).

Our Eight-graders embarked on a project to investigate the ingredients and side effects of junk foods.. This hands-on assignment aimed to enhance their understanding of nutrition and promote healthy choices.

## Grade 9

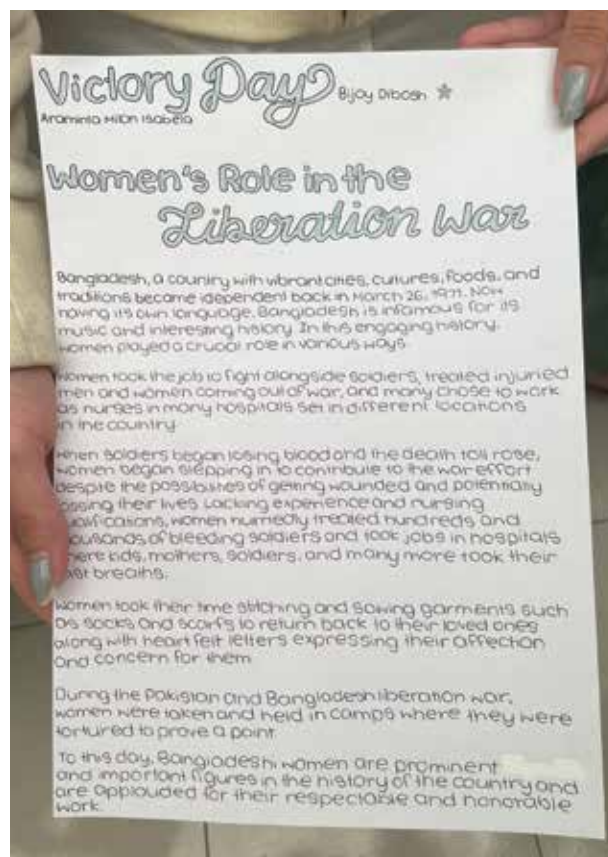

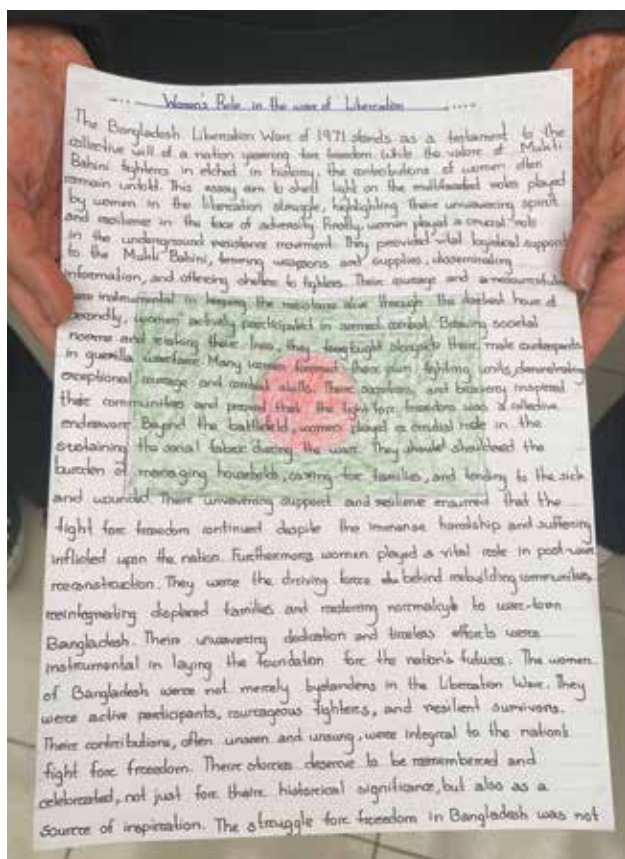

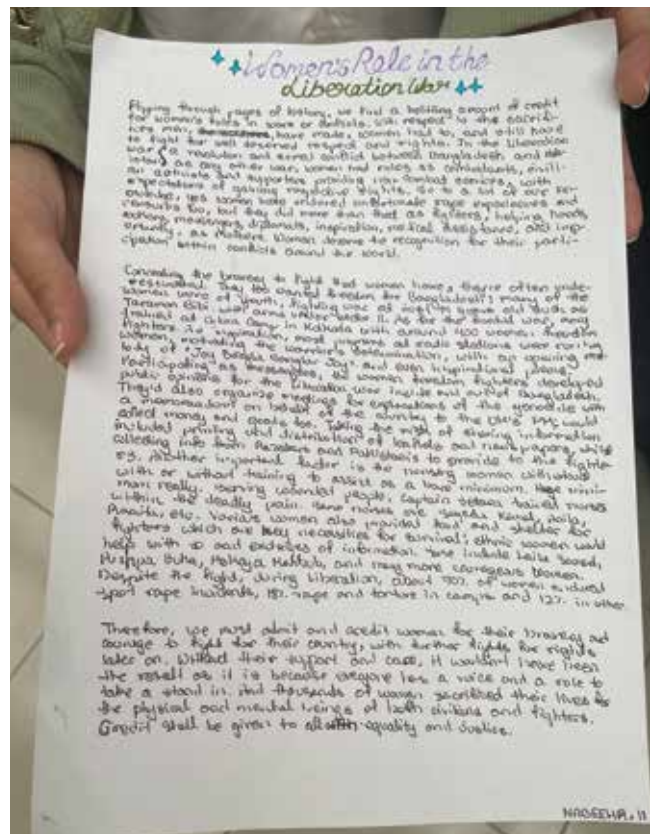

Peer tutoring is a collaborative learning strategy in which students of similar academic levels work together to help each other understand and master academic content. Here in CISB we encourage peer tutoring as it is a dynamic and effective approach to learning that leverages the strengths of peer relationships. It not only enhances academic understanding but also contributes to the development of valuable social and interpersonal skills. Teachers in CISB integrate peer tutoring as a complementary strategy to traditional teaching methods, promoting a student-centered and collaborative learning environment.

Students of grade 9 created a collage on what it means to be Canadian. They highlighted Canada's culture, diversity, and trade.

## What is education without practical application!

Finance & Accounts

# FINANCE

IBDP Students  
Grade 12

## REAL-WORLD APPLICATIONS IN THE CLASSROOM

To bridge the gap between theory and practice, our dedicated faculty has curated a curriculum that integrates real-world case studies and simulations. These immersive learning experiences allow students to apply their theoretical knowledge to practical situations, fostering a deep and holistic understanding of financial principles.

As our students continue their journey in the IBDP, we remain committed to nurturing their passion for finance and accounts. We anticipate that these experiences will not only equip them with the knowledge and skills necessary for success in the financial world but also instill in them a sense of responsibility and ethical decision-making.

## INTRO TO BUSINESS

We hope this newsletter finds you well and thriving. As we approach the end of another exciting semester, we're delighted to share the remarkable journey our International Baccalaureate Diploma Programme (IBDP) students have embarked upon in the realm of finance and accounts.

In closing, we extend our gratitude to our students, faculty, and the entire School community for their unwavering support in shaping the future leaders of tomorrow. Together, we are laying the foundation for a generation of individuals who are not only academically proficient but also socially responsible and financially savvy.

## IBDP 2 CAS

On 2nd December, 2023(Saturday), some of our Grade-12 students(Alisha, Alvaro and Isadora) went to an orphanage at Pallabi, Mirpur to spend some quality time with the children. The orphanage was run by an NGO Aparajeyo Bangla.

A special thanks to Jannatul Ferdouse, owner of Orenda and Beans cafe at Mirpur-10. She has been voluntarily working as a humanitarian for many years. During Covid-19 pandemic Jannatul Ferdouse worked on the frontlines. Regularly she has been helping the orphanage. She has gladly coordinated and helped our students to understand the true essence of humanity.

The whole event was part of the IB students CAS Project and Community Services. In October, the students had organized a food sale in the CISB canteen. They had successfully raised a good amount of funds to donate study materials and winter clothes for the orphan children.

## French

### French Ab initio

A DP student is preparing for his MOC on the theme Organisation Sociale

### French - Grade 6

Kids love animals even more when they are learning the names of different animals in a new language

## Victory Day Celebration

## Message from the Principal

December is upon us. Already we are almost half way through our school year! As a reward, December brings us vacation time and perhaps a little travel. Certainly most of us will spend time with our families. Our International Baccalaureate students are off to Thailand, a trip that promises to make their education more exciting than ever before. Along the way, we have Victory Day, a celebration time to look at the past and appreciate the sacrifices that the founders of our country made. Our younger children will celebrate the mysterious arrival of Santa Claus (No, it's not me!) and all the wonder that this can bring. Our high school students' joy will be tempered somewhat by the realization that there are January exams coming close by on the heels of their vacation. Some time must surely be devoted to study and completion of assignments, but it is the change of routine and pace that can be welcome, even to the most dedicated of students. For our parents, it's a chance to re-connect with their children, to recognize the happiness and enjoy just having them around a little more.

Douglas A. Roy
